

Free Anti-Virus software

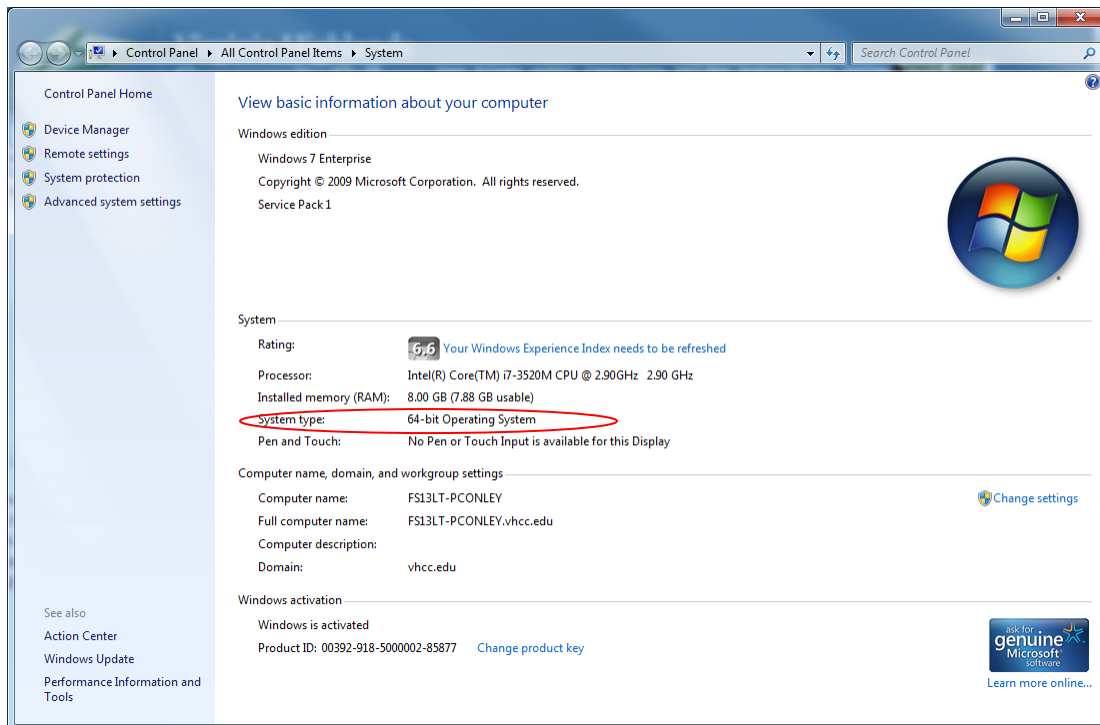

- Login to Blackboard.
- The option to download the FREE Symantec Anti-Virus software is available from the VHCC tab.

The screenshot displays the Blackboard user interface. At the top, there is a navigation bar with tabs for 'VHCC', 'Learn', 'Student Connect', 'Research', and 'Help'. Below this, a green banner indicates 'The module has been successfully updated.' The main content area is divided into several modules:

- VHCC Atomic Learning:** Features the Atomic Learning logo and a 'Launch Atomic Learning' button. It notes the last update on July 23, 2015, at 11:38 AM.
- Blackboard Mobile:** Promotes the Blackboard Mobile Learn app, stating it allows access from any capable device.
- My Blackboard Courses:** A section where 'All of your courses are hidden.'
- My Organizations:** A section where 'All of your organizations are hidden.'
- Welcome:** A central message from Virginia's Community Colleges' Blackboard Team, including contact information for help.
- Microsoft Office Pro:** An advertisement for Microsoft Office Pro, priced at \$84.98, with a link to the JourneyEd online store.
- Free Anti-Virus Software:** This module, circled in red, offers 'FREE Symantec Antivirus Products for Students, Faculty, and Staff'. It lists supported operating systems: 'XP/Vista/Win7/Win8 version 12.1.5' and 'Macintosh Version 12.1.5 (OSX 10.7 thru 10.8) (OSX 10.8)'. It includes a download icon and a link to 'download it here'.
- Virginia Education Wizard:** A section featuring 'Ask Ginny', a virtual assistant for career and college guidance.
- VHCC Smarthinking:** A sidebar module for Smarthinking, an online tutoring service. It lists subjects like Basic Math, Algebra, Geometry, Trigonometry, Calculus, Writing Lab, General Chemistry, Physics, Accounting, Statistics, Economics, Finance, Biology, and Anatomy and Physiology. It also includes a list of services: 'Connect and interact with a LIVE tutor in a one-on-one session in a variety of subject areas' and 'Submit a question and receive a reply from a tutor within twenty-four hours'.

Free Anti-Virus software

- Before you get started, if you have a Windows system, you will need to determine if you have a 32 bit or a 64 bit operating system.
- Open the Control Panel on your computer and choose System (System and Security on Windows 8).
- Make a note of the System type you have. See example below.

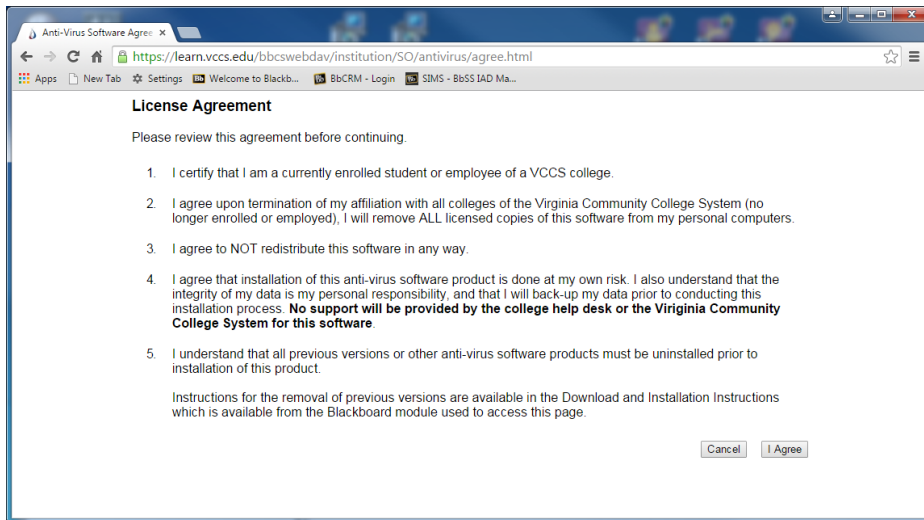

Free Anti-Virus software

FREE Symantec Antivirus Products for Students, Faculty, and Staff
XP/Vista/Win7/Win8 version 12.1.5
Macintosh Version 12.1.5 (OSX 10.7 thru 10.9) 12.1.3 (OSX 10.6)

Students, faculty, and staff can now download Symantec AntiVirus Products for use on their personal computers.

Accept the License Agreement as shown below.

- **Be sure to read through the Windows Notes below before you start the installation.**
- Choose the appropriate version of software below and follow the instructions on your screen.

Download Symantec Endpoint Protection

Download User Manual for all Windows and Mac versions (V 12.1.2 - 1MB)

Download **32 bit** SEP for Windows XP, Vista, Windows 7, Windows 8 (V 12.1.5 - 64MB)

Download **64 bit** SEP for Windows XP, Vista, Windows 7, Windows 8 (V 12.1.5 - 80MB)

Windows Notes:

- Close any open applications before continuing. Failure to do so could cause problems with your computer.
- All previous versions of Symantec or Norton, or any other anti-virus software products must be uninstalled prior to installation of this product.
- You must be logged on to Windows using an account which can install software.
- You must choose either the 32 bit or 64 bit version based on your system hardware.
- Only Windows XP, Vista, Windows 7, and Windows 8 are supported. Other operating systems are not supported - for example, the following are **not supported** and **the software will not work on them**:
 - Windows 2000 is **not supported**
 - Windows ME is **not supported**
 - Windows NT is **not supported**
 - Windows 98 is **not supported**
 - Windows 95 is **not supported**
 - Macintosh is **not supported**
- Download/unzip the file and then start the setup.exe file in the topmost directory. From the install menu choose the third bubble "Install Symantec Endpoint Protection Client".
- After you have installed the software, restart your computer.

Download SEP for Macintosh (V 12.1.5 - 28MB)

Mac Notes:

- Close any open applications before continuing. Failure to do so could cause problems with your computer.
- All previous versions of Symantec or Norton, or any other anti-virus software products must be uninstalled prior to installation of this product.

Only Mac OS X versions 10.6 through 10.10 are supported. Other operating systems are not supported - for example, the following are **not supported** and **the software will not work on them** For OS X 10.6, download version 12.1.3

- OS X version 10.5 and below are **not supported**
- Click the Macintosh download link and select Run to start the download process. When it finishes, click the open box icon labeled "Symantec AntiVirus Installer" to start the installation.
- After you have installed the software, restart your computer.
